Your emergency care summary

Dear Patient

Summary Care Record – your emergency care summary

The NHS in England is introducing the Summary Care Record, which will be used in emergency care.

The record will contain information about any medicines you are taking, allergies you suffer from and any bad reactions to medicines you have had to ensure those caring for you have enough information to treat you safely.

Your Summary Care Record will be available to authorised healthcare staff providing your care anywhere in England, but they will ask your permission before they look at it. This means that if you have an accident or become ill, the healthcare staff treating you will have immediate access to important information about your health.

As a patient you have a choice:

- **Yes I would like a Summary Care Record** – you do not need to do anything and a Summary Care Record will be created for you.
- **No I do not want a Summary Care Record** – attached is an opt-out form. **Please complete the form and hand it to a member of the GP practice staff.**

If you need more time to make your choice you should let your GP Practice know.

For more information talk to the Patient Experience Team on **0800 2792535** or CAPCCG.pet@nhs.net, visit the **Cambridgeshire & Peterborough Clinical Commissioning Group website - www.cambridgeshireandpeterboroughccg.nhs.uk**, telephone the dedicated NHS Summary Care Record Information Line on **0300 123 3020**, or visit their website www.nhscarerecords.nhs.uk, or contact your GP practice staff.

Additional copies of the opt-out form can be collected from the GP practice, printed from the website www.nhscarerecords.nhs.uk or requested from the dedicated NHS Summary Care Record Information Line on **0300 123 3020**.

You can choose not to have a Summary Care Record and you can change your mind at any time by informing your GP practice.

If you do nothing we will assume that you are happy with these changes and create a Summary Care Record for you. Children under 16 will automatically have a Summary Care Record created for them unless their parent or guardian chooses to opt them out. If you are the parent or guardian of a child under 16 and feel that they are old enough to understand, then you should make this information available to them.

Yours sincerely

Practice Manager

What does it mean if I DO NOT have a Summary Care Record?

NHS healthcare staff caring for you may not be aware of your current medications, allergies you suffer from and any bad reactions to medicines you have had, in order to treat you safely in an emergency.

Your records will stay as they are now with information being shared by letter, email, fax or phone.

If you have any questions, or if you want to discuss your choices, please:

- Phone the Summary Care Record Information Line on 0300 123 3020;
- Contact your local Patient Advice Liaison Service (PALS);
- or
- Contact your GP practice.

FOR NHS USE ONLY

Your health record and sharing of information

Please read this leaflet carefully. It provides information about the choices you can make about sharing your health record. Your health record includes your medical history, details about your medication and any allergies you may have. You can now choose whether to share these full medical details.

We use a secure electronic health records system called SystmOne. With your permission, this system can allow clinicians to share your full record held here with other healthcare services who are providing care for you. These other services will ask your permission to view your record.

Many organisations may use SystmOne including some GP practices, out of hours services, children's services, community services and some hospitals. Sharing your health record will help us deliver the best level of care for you.

You have **two choices** which allow you to control how your record is shared. You can change these choices at any time by letting the relevant practice or service know.

Please read this leaflet and fill in your choices. You may wish to keep this section for future information. Please contact the Patient Experience Team on 0800 2792535 or CAPCCG.pet@nhs.net if you have any queries.

Please note: if you have previously opted out of sharing your information via the Summary Care Record, you will still need to complete this form with your choices about sharing your health record within SystmOne.

For further details visit www.cambridgeshireandpeterboroughccg.nhs.uk

Your choices at each practice or service

Sharing OUT - This controls whether your information recorded at this practice or service can be shared with other healthcare services.

Sharing IN - This determines whether or not this practice or service can view information in your record that has been entered by other services who are providing care for you, or who may provide care for you in the future.

Imagine you're receiving care from three services: your GP, a district nurse and a smoking clinic. You want your GP and District Nurse to share information with each other and you want both of them to know your progress at the smoking clinic. However, you don't want the smoking clinic to see any of your other medical information. Your sharing choices at each practice or service would be:

- The GP can share information **IN** and **OUT**.
- The district nurse can share **IN** and **OUT**.
- The smoking clinic can only share information **OUT** but not **IN**.

You can change your choices at any time. Let each practice or service know.

Note: You can request individual entries in your record to be marked as 'Private'. These are not shared with the rest of your record even if you choose to share out.

Please complete your details below and make your choices. Please complete a separate form for each of your dependents. Complete this section and return to the practice or receptionist.

How we use your medical records

Important information for patients

- This practice handles medical records in line with laws on data protection and confidentiality.
- We share medical records with those who are involved in providing you with care and treatment.
- In some circumstances we will also share medical records for medical research, for example, to find out more about why people get ill.
- We share information when the law requires us to do so, for example, to prevent infectious diseases from spreading, or to check the care being provided to you is safe.
- You have the right to request a copy of your medical record.
- You have the right to object to your identifiable information being used for medical research and to plan health services.
- You have the right to request that any mistakes in your medical record are corrected.
- Our practice privacy notice is on the practice website which includes information on how to contact the Information Commissioner's Office to seek advice or make a complaint if you need to do so.
